CSCI 3308: Software Development Methods and Tools

Three Headed Lizards

By:

Zixin Chen, Connor Ely, Ryan Horn, Theodorus James Lincke V, Layan Makhtoum, Richard Dudley Ortecho

Project Tracker:

Scrum Board
Updated on Sep 24

4 Epics

Robot control interface. Design a simple user interface to be able to communicate with the drone easily.

Added by tlincke125

Camera control interface. Design an interface for camera control using a gui of choice (i.e. android or ios or laptop) To be able to control to camera.
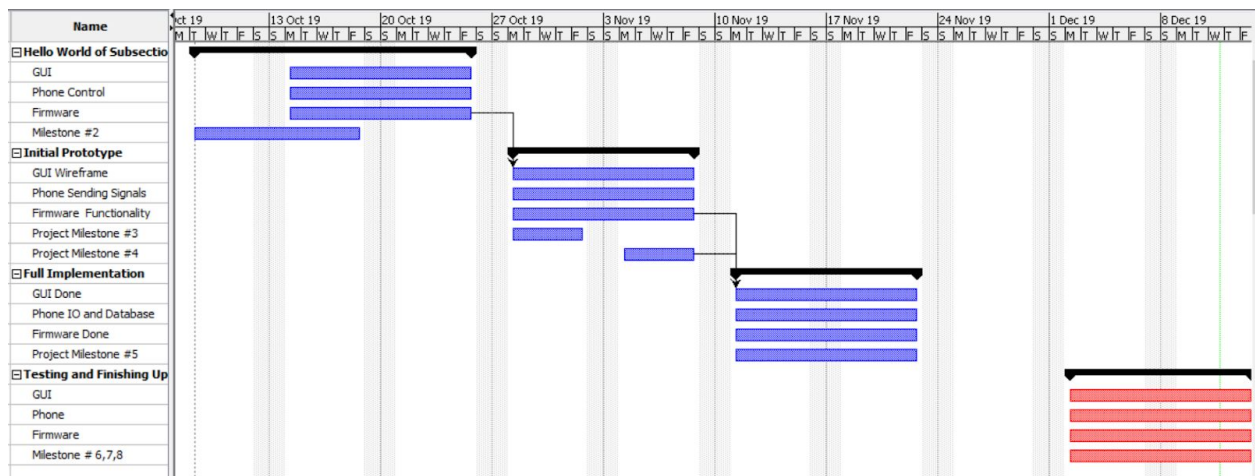

Added by tlincke125

2 To do

Hello world of camera control. Get camera to stream and turn on and off and movement control.

Added by tlincke125

Hello world of motor control. Simply get the motors to move by changing them.

Added by tlincke125

Automated as **To do**   Manage

2 In progress

VCS:
https://github.com/Three-Headed-Lizards

**Deployment:**
https://the-game-three.herokuapp.com/
And example for logging into a user would be:

UserName: NakedChickenWing
Password: 12345
And **always remember** to click that remember me button.

Mobile Design:

Three Head Lizard

Flying your drone and having fun with your friend !
